REVOLT IN SAN DOMINGO

Senor Grullon Gives the Side of the Revolutionists.

Declares Heureaux Was a Blood-Are Hunting His Assassins.

Senor Adrianno Grullon of the firm of Huttlinger & Vivig of New York, the representative in the United States of the Santo Domingo revolutionists, and formerly the business partner of Senor Jiminez the leader of the insurrection, last night made public the following statement of the reasons for the recent assassination of

"The assassination of President Heureaux was not an act of revenge for the murder of Caceres' father, but the signal for the commencement of the uprising against the existing government there.

"Caceres is a cousin of General Horacio Vasquez, and was with him at the time of the shooting. General Vasquez is a member of one of the best families of Moca, and was for some years a partner in the house of Cosmo Batile, a firm well known there, and former agents of the Clyde

Steamship Company.
"Neither Mr. Caceres nor General Vasquez can be considered common assassins. as their motives were not personal, but pa-triotic. They attacked the president in broad daylight in an open space, and not from an ambush of any kind, nor even in the dark, although their little party was outnumbered two to one by the president and his bodyguard.

Held Power by Terrorizing.

"For fourteen years Heureaux has held power by a system of terrorizing. Citizens -require a "Wernicke" Bockcase to house them properly. The "Wernicke" offers best protection to becks. Can accommodate any number. It's a system of units—you fill one section the 1 add another. Sole 1). C. agents ever or without even being given a reason for their incarceration. There has been no legal election of any kind since 1889, and then in order to secure his re tention in power Heureaux had to count more votes from the interior provinces than there were actual inhabitants, including men, women and children. "As a result of this the opposition party,

whose candidate was Moya, appealed to arms, but after a long struggle was defeated. Since that time very few reputable citizens have taken part in the elections, knowing them to be a farce.

'The constitution of Santo Domingo, in common with most South and Central American countries, provides that no one shall hold office for more than one term in succession, but this the late president over-ruled. There is no such thing as a free press in that country; no paper dares publish anything unless favorable to the exist-ing regime. Even here in New York the Dominicans who are residents dare not give information regarding the politics of their country, fearing that their relatives and interests there would suffer.

"During the war between the United tates and Spain Heureaux showed his sympathy for Spain in many acts and put every difficulty possible in the way of Americans and Cubans. His efforts on the side of Spain were so marked and of such assistance to that country that they re-sulted in the Queen of Spain recognizing them to the extent of a decoration which she sent to him.

Tried to Discredit Jiminez.

"He used every effort to discredit the insurrectionists by proclaiming that Jiminez intended to sell the country to the Yankees, and that if this were done and they fell into the hands of the United States they would be treated like slaves. This naturally gained some credence among the ignorant people of the island, the num-ber of which has steadily increased because of Heureaux's policy to discourage educa-tion of every sort. He deliberately closed the only high school in the island and drove away Eugenio Hostos, a renowned educator and the founder of the high

'Mr. Jiminez desires the most friendly relations with the United States, and there is not the slightest fear that the insurrec-tionists will interfere in any way with the Polls close at 2 o'clock.

latter would announce that a legal public election would take place on August 16, which is the independence day of the coun-

try.
"The entire country is aroused to the necessity of a change to a government where life is secure, and it recognizes that the former vice president and the present pretending president is but one of the ac-complices of Heureaux, and as such has no confidence in him.'

ANACOSTIA AFFAIRS.

Mr. Dean Mistook a Citizen for an Escaped Lunatic.

When Adolf Boronitzki, a Polish man, about sixty years old, appeared on one of the roads at Congress Heights last evening shortly before 7 o'clock, after taking his evening swim in Oxon creek, John W. Dean, a young white man employed as a laborer at St. Elizabeth, who was passing in a wagon, took him for an escaped inmate of the asylum and proceeded to act on this theory by taking charge of Boronitzki. Dean thought the man's dress was an indication that he was an escaped patient. Boronitzki was attired in rough clothing, consisting of dark coat, blue overalls, slip-pers and slouch hat, and his general apearance was such as to convince Dean the man had escaped from St. Elizabeth. Boronitzki tried to explain, but his broken English failed to change his captor's idea, and after a short tussle, it is alleged, Boro-nitzki was forced in the wagon, when sud-denly Dean became aware through the in-formation of others who had gathered that he had made a mistake. He then offered the man his freedom, but Boronitzki could not be induced to leave the wagon, and it was clear he wanted Dean arrested for assault. While the matter was being argued officer Stahl came along and Boronitzki told him his story in German and demanded the arrest of Dean. The party then came to the Anacostia police station in Dean's wagon, and \$5 was deposited by Dean as colon, and \$5 was deposited by Dean as col-lateral for his appearance in the Police Court this morning. JOHNSON TO BE TRIED FRIDAY. Assailant of Anna Kerfoot Waives Trial by Jury.

Special Dispatch to The Evening Star. HAGERSTOWN, Md., August 2.-Five minutes after the circuit court of Washington county opened here this morning, with Judge Stake on the bench, Sam Johnson, the negro who raped little Anna Kerfoot or Thursday last near Mondel station, was

brought into court and arraigned. Under the indictment returned by the grand jury yesterday Johnson, who had been in the Baltimore jail since Saturday, was brought back to Hagerstown early this morning. This was not generally known, and but few people were in the court house when Johnson was arraigned. Shortly after the immense hall became packed with an orderly crowd of people. As Johnson, replying to the court's inquiries, had no counsel and little money, ex-State's Attorney J. A. Ma-son, and A. C. Strite were named by Judge Stake to defend him. The accused plead not guilty to the indictment, and chose to be tried in this county. After a lengthy consultation with his councel Johnson asked to be tried by the court. This was granted, and an order to allow his coursel time for preparazon, and at their earnest solicita-tion the case was adjourned until Friday. Much indignation continues to be expressed here against Johnson, but the prompt action of the authorities in bringing him to trial has allayed all excitement.

COL. HAWKINS DIED AT SEA.

Transport Senator Reaches 'Frisco With 10th Pennsylvania Regiment. The United States transport Senator ar rived at San Francisco last night from Ma

with thirty-eight officers and 720 enlisted men. The transport was at Nagasaki on July 15, when Col. Hawkins was taken ill will cancer of the bowels, from which he had been a sufferer during the greater part of the campaign in the Philippines, and for which he had undergone treatment in the military hospital at Manila. His illness continued during the following day, July 16, when the Senator was at Yokohama, and two days later he passed away at sea. Col. Hawkins' illness dated from the bat-tle of Malolos, when he exposed himself almost recklessly in the disease-breeding climate. He was respected and loved by every man of his command and his death is deep-ly mourned by the troops. His body was placed in a hermetically sealed casket, and on the Sunday following his death impres-sive funeral services were conducted by the chaplain of the regiment, all of his men be "As Heureaux was an usurper, the vice president is equally so, but bloodshed and insurrection would cease at once if the

The Senator had a good trip from Japan. With the exception of the sad death of the regimental commander, there was no sickness aboard, barring a few cases of seasickness and half a dozen cases of dysen-tery. developed appendicitis, and who will be op-erated on in the hospital here. When the 10th Pennsylvania left for the Philippines last year the muster comprised \$50 men. Gov. Voorhees Finds Abuses in Industrial Home at Trenton.

A dispatch to the New York Herald from Trenton, N. J., last night says: In response to the demand of the people and clergy, Gov. Voorhees began today an investigation of the alleged ill-treatment of the inmates of the State Industrial Home for Girls. The executive surprised Trenton by arriving here when his vacation was only half spent. He went this afternoon to the institution and at once began an investigation which has so far established that cruel and inhuman punishments were inflicted upon young girls sent there to be guided and corrected by a wise and humane state. The process of reformation, the testimon

showed, included imprisonment in dark cells, severe chastisement at the hands of ill-natured women while the victims were held by farm hands, and a course of hand-cuffs, shackles and straitjackets. Taken all in all, the governor found a lit-

Taken all in all, the governor found a little more than he expected. He said this evening that the fact that such plinishments were inflicted had been established and that tomorrow he would seek to find if they were in any sense justified. He says that the girls in the institution are recalcitrant and refractory. Whatever may be wanted can be secured in the quickest and cheapest way by using the "Want" columns of The Evening Star. When the seventy-five delegates assembled in the town hall at noon and Chairman Beall of the central committee called the convention to order it was apparent that the slate of the so-called machine would probably not pull through without a spirited contest. Richard J. Swann of the Bowle district was elected permanent chairman. There were contests from the Millwood and Marlboro' districts, which were soon settled by the committee on credentials. The settlement was a compromise between the Wilson and Griffith factions. Delegates elected to the state convention were Geo. S. Dove, L. A. Griffith, George M. Smith and Joseph S. Wilson. The result of this election was highly satisfactory to all factions, as it appeared to heal the differences in the party. All went well until the time for nominating candidates for the county offices arrived, and then the squabble be gan. It was openly charged that a post-ponement was wanted in the interest of certain candidates whose friends feared they would not pull through. Delegates Darr and Wells of the Laurell and Biadensburg districts were among those who made speeches in opposition to the motion. Those of the Wilson faction favored the motion, which, as already stated, was farried. The vote was taken by districts, and the result was 9 to 6 in favor of postponment. Much dissatisfaction was manifested by the delegates from the upper part of the county, and it is believed that the candidates will be selected from the districts in the lower end of the county. It is believed that the convention will not be called to meet until of the the remediates are in the after the republican candidates are in the field. This will make the campaign a short one. The delegates selected will go to the state convention uninstructed. It is thought that they will vote for Smith for governor.

Rev. Stowell Bryan of St. Paul's was in-

In his discussion of the league's relation to society he emphasized the latent and unused power socially of the great army of four millions of young people banded together under the banner of the cross for the betterment of humanity.

Echoes from the Indianapolis convention were heard through Dr. Wilson, and the quartet sang by request "Praise the and the quartet sang by request "Praise the Lord." With the benediction by Rev. W. Suspicious Characters. Junius Gordon, colored, aged twenty-five

years, was arrested yesterday at Benning by Mounted Officer Patrick Creagh because he was, as the officer thought, acting in a suspicious manner. Gordon was searched, and in his possession were found two unloaded revolvers and a pair of steel knuckles, also several photographs of white ladies. Today the accused man was tried before Judge Mills on the charge of carrying concealed weapons, and was sent to

ing concealed weapons, and was sent to jail for sixty days.

Shortly after the officer sent Gordon to the police station, Mr. Creagh observed two colored boys, who gave their names as James Royster and Frank Pollard, respectively, acting strangely in the same neighborhood, and arrested them. Upon the person of Royster there was found a coin bag of an Evansville, Ind., bank, which contained a counterfeit dollar, a number of Chinese tokens, a brass check of Rennert's restaurant, Baltimore; several photographs, a card engraved with the photographs, a card engraved with the name of Miss Katharine H. Hilliard and name of Miss Katharine H. Hillard and some other trifling articles. The boys were this morning arraigned before Judge Taylor as suspicious charac-ters, and each sent to the workhouse for thirty days.

THE EIGHT-HOUR LAW.

Decision of the Naval Judge Advo-

cate General.

The Navy Department has rendered a de-

cision construing the eight-hour law that

will be of importance to all labor interests

as well as to government contractors. The

commandant of the Washington navy yard

recently asked authority from the depart-

ment to permit the contractor who is

building the new gun shops in the yard to

employ his workmen ten hours per day.

In support of this application it was stated

that during the progress of the work the

operation of the machinery was to be

stopped and the floor was being damaged

by exposure to rains.

The judge advocate general's department has pointed out that the law permits the employment of workmen on govern-

ment works for more than eight hours pe

day "only in case of extraordinary emer-gency, and then lays down a new doctrine

in the construction of this law, as follows.
"Inasmuch as the conditions reported are such as must have been foreseen when the

contract was made, and are such as neces

sarily exist to a greater or less degree whenever work of the character referred to is in progress, the department is of the

opinion that the case cannot be regarded as one of extraordinary emergency. In

cases of this character it would appear

that if the public property cannot be suffi-ciently protected from damage otherwise, the proper remedy would be to employ a

force of men in relays, by which means the work could be expedited much more effect
